PRESS RELEASE

CSS Wins Oracle North America Titan Award for Third Time

Oracle North America Titan Awards Announced at OpenWorld in San Francisco

CHARLESTON, SC, (September 20, 2010) – CSS International, an Oracle PartnerNetwork Platinum Partner, was awarded one of Oracle's most recognized partner honors at this week's Oracle® OpenWorld conference – the North America Titan Award for the Services Industry Solution category.

CSS' Titan win this year makes the company a three time Oracle North America Titan Award winner since the awards were implemented in 2003. The Oracle North America Titan Awards are given by Oracle to its leading partners, recognizing their role providing outstanding solutions, business practices and process improvement for Oracle customers.

CSS received an Oracle North America Titan Award for its work in one of Oracle's target industries – engineering and construction. CSS was among 16 partners, across 22 categories and 165 nominations, to be honored.

“Our biggest reward is helping our customers improve their businesses through process and technology. We bring a unique mix to each project—deep industry knowledge, decades of software implementation experience, and a true collaborative relationship with Oracle product development. Together, we are equipped to help our clients succeed at enterprise-wide business transformation. Oracle's North America Titan Award win is icing on the cake for us – we're very proud to have had a part in our customers' success using Oracle solutions and we'll continue to look for opportunities to make that happen time and time again,” Kirk King, CEO, CSS International, Inc.

“We congratulate CSS International on winning Oracle's North America Titan Award in the Services Industry solution category,” said Tyler Prince, group vice president, North America Sales, Applications and Public Sector Alliances and Channels, Oracle. “Oracle partners and customers can feel confident that CSS' expertise in Oracle solutions can help them better align with their business objectives and project goals.”

About CSS International, Inc.:

CSS is a leader in deploying Oracle enterprise solutions for mid- and large-sized companies. CSS offers a single source for all application, technology and process implementation and business process improvement needs. The CSS project approach is based on decades of industry experience, a unique Change Management program, sustainability and a deep-rooted sense of professional integrity. CSS exclusively supports the Oracle product line and is a multiyear Oracle North America Titan Award winner for excellence in sales, marketing and solution development and deployment. With an unmatched record of success, CSS has helped hundreds of companies implement complex technology solutions. CSS is headquartered in Charleston, SC, with operations throughout the United States. About Oracle PartnerNetwork:

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through Specializations. Specializations are achieved through competency development, business results, expertise and proven success. To find out more visit <http://www.oracle.com/partners>.
